# INSTRUCTIONS AND CLASSIFICATION OF GOODS FOR REGISTRATION RENEWAL OF A TRADEMARK OR SERVICE MARK

Chapter 6-2 of the General Laws of Rhode Island, 1956, as amended

## INSTRUCTIONS

The application for the renewal must be accompanied by a filing fee of \$50.00. Make all money orders and checks payable to the Secretary of State.

Send a separate check for each renewal application. This will prevent the return of multiple applications for correction.

All blanks, with the exception of blank #6, class number, are to be completed before the application will be accepted and processed for renewal. If the class is not known, leave blank.

Please staple or clip three (3) specimens or facsimiles of the mark with the application on 8 ½ x 11 inch paper. DO NOT GLUE OR TAPE. In a few instances where the mark is a spoken word, no specimens are possible. Please explain the absence of specimens or facsimiles when answering number 5.

Please return application in duplicate. One copy will be returned for your records.

Return to: Trademark Section  
Office of the Secretary of State  
100 North Main Street  
Providence, RI 02903-1335

## NOTES

- (1) State here what applicant believes to be the essential features of the mark. If the manner of displaying the mark is not a feature of the mark, this may be so stated.
- (2) Section 6-2-9 provides for the promulgation of rules and regulations for the determination of classes of goods and services. The following general classes of goods and services are established for convenience of administration of this Chapter but not to limit or extend the applicant's or registrant's rights. A single application for registration of a mark may include any or all goods or services upon which the mark is actually being used and which are comprised in a single class. In no event shall a single application include goods or services upon which the mark is being used and which fall within different classes.

## CLASSIFICATION OF GOODS

1. Chemical products used in industry, science, photography, agriculture, horticulture, forestry; artificial and synthetic resins; plastics in the form of powders, liquids or pastes, for industrial use; manures (natural and artificial); fire extinguishing compositions; tempering substances and chemical preparations for soldering; chemical substances for preserving foodstuffs; tanning substances; adhesive substances used in industry.
